The Shelby County Roads and Bridges Department has a need to purchase crushed concrete for base stabilization of large road failures and other road construction projects.

This resolution awards \$147,000.00 from the FY2008-2009 Operating Budget for crushed concrete to Standard Construction Company for approximately 12,000 tons at \$12.25/ton. Crushed concrete is needed to provide improved and necessary road stabilization relating to major and routine road failure repairs. Also, this material is used extensively for stabilization on scheduled roads approaching new bridge projects and other planned drainage construction.

This represents an increase of \$40,200.00 over last year's contract in the amount of \$106,800.00.

To the best of our knowledge, there are no known LOSB vendors that provide crushed concrete for the purposes of this contract.
